Block: _____ Lot: _____ Zone: _____ Corner Lot: Yes ___ No ___

Contractor: _____ Phone # _____

Contractor's Address: _____

Address: _____

Email Address: _____

Occupancy Type: Check One

RESIDENTIAL: One Family Two Family Three Family Multi Family

COMMERCIAL/INDUSTRIAL: Please describe: (i.e. Retail, Business, Office, School, etc.)

- 1) Residential properties may have only Level I or II EV charging equipment.
- 2) Level I - 120 VAC - Level I refers to using a standard house outlet to charge. For Level I EV charging equipment, a permit is not required. However, if you are installing a new 120v outlet, this permit is required.
- 3) Level II - 208- 240 VAC. For Level II EV charging equipment, this permit is required.
- 4) Level III - 480 VAC and above - Sometimes called DC fast chargers, these chargers use a 480 plug to provide direct current (DC) electricity. These are not allowed on residential properties.

An Escrow Deposit may be required if a determination is made regarding an increase in electrical capacity.

All applicants are required to submit a copy of the data/specifications of the charging unit.

An inspection is required at the completion of all Electric Vehicle Charging stations.

Application fees are as follows and should be made payable to the Borough of South River:

Level I - \$25.00

Level II - \$100.00

Level III - \$100.00

I am the applicant and acknowledge to have read the above and agree to same.
